

I am the very proud mother of two children at our school, one in Year 1 and the other in Nursery.

I have a Bachelor's Degree in Political Science and Public Administration, with further studies in International Economy and Commerce.

I worked for 18 years in the Government of Mexico in several fields - international negotiations, commerce, and anti-corruption. My last 6 years were in transparency and protection of personal data. I moved to London in 2009.

This year, I had the privilege of being appointed Governor and as part of the Governing Body of this wonderful school, I have a great interest in working with all issues related to Special Educational Needs and others in which my experience can contribute to the continuity of the outstanding achievements of our children.
