

**Kath Howell - LA Representative Governor**

I first became a governor at Coleridge 20 years ago when both my children were at the school. Having been a primary school teacher myself, working in Hackney, Waltham Forest and Singapore, I welcomed the opportunity to be involved in supporting the school in the early years of self-management. I have continued to find the position stimulating as there have been many developments since with schools having to take on more and more responsibilities. It has been a privilege to be part of the talented team that has led Coleridge forward to being the successful, vibrant place it is today. I am currently vice-chair and a member of the Resources and Standards, Environment and Health & Safety committees.
