

Paul Eadie MBE

I am Mia Collis' Grandfather and have been walking Mia to school for over 4 years now. I have been very impressed by the school, teaching staff and fellow parents and grandparents, and would like to assist the school in these times of spending cuts.

My background is running a family engineering business and since 1994 acting as an export consultant for the government, assisting companies with Latin America for which I was awarded an MBE.

Between 1979 and 1985 I served as a district councillor in Cheshire, and in that capacity served as a school governor.

I am fluent in French, German, Spanish, Italian and Brazilian Portuguese. I also have a smattering of Greek and Russian.
