Sibylle Erdmann – Parent Governor

I have a son in Year 1 and another son about to start Reception at Coleridge Primary School. Last year, I had the privilege to be elected to become one of the Parent Governors at this vibrant school.

I bring to this role 15 years professional experience in organizational consulting all over the world. I am interested in how all groups of people experience organizations, which in the case of our school are the children, parents and carers, teachers, the leadership team, all other staff and the wider community. As Parent Governor, I pay particular attention to the voice of parents and carers.

I have a Bachelors Degree in Psychology from University College London and a Masters Degree in Social Psychology from the London School of Economics and Political Science. I am currently doing a doctorate in Organizational Change at Ashridge / Hult Business School.

In my doctorate, I am writing about generosity and compassion in the context of how healthcare decisions for children are made between parents and doctors.
