

# Year 1 Home Learning

## Topic & science

This half term our Topic is 'Ourselves'. We will be learning about our likes and dislikes, our families, parts of the body, and what makes each of us special.

For the whole of autumn term, our science topic is 'Animals, Including Humans'. We will be learning about how to group animals e.g. mammals, reptiles etc. We will also be learning about the different parts of the human body and what each part of the body does.

## Proper Project

### Keep a family diary:

What do you do with your family, and what do you get up to when you are not at school? What do your family eat? Where do you go? What do you do together in the evenings after school?

Keep a simple diary of your family activities by writing, drawing pictures or taking photos. Keep your diary for one month and record the exciting things that happen to you and your family.

## Create 'n Make

We have been creating our own self portraits in class. Have a look at some famous portraits by artists such as Rembrandt, Picasso, Van Gogh. See if you can create a portrait of someone important to you using different mediums and materials. You could use collage, paint, crayons etc.

## Espanol

We are practising greetings in Spanish this half term. Can you draw a picture of yourself saying all the greetings in Spanish that we have learnt e.g. Hola, Buenos Dias, Buenos Tardes, Buenos Noches etc. Can you practise these greetings with your family?

## Let's talk...

Find out about your family history e.g. grandparents, aunties, uncles etc. Do people speak a different language in your family? Where do they live? Can you find this place on a map? Have you got photos of your family when they were your age? We would love to see them!

## Out and about...

Visit The National Portrait Gallery in central London. Take a look at the different types of portraits. Which ones do you like? Why do you like them?
