

Nursery Home Learning

Create

We have been talking about our holidays. And the things we do when we are on holiday. Have you ever been to the beach? If so where was it? What did you do on the beach? Did you go in the sea? Can you name some creatures that live in the sea? What's your favourite sea creature? Can you paint or draw a picture of the creatures you might find under the sea.

Shape, space and measure

Physical Development

We will be thinking about shapes. Can you see any 2D or 3D shapes on your walk to school? We are going to be exploring shapes through junk modelling and a shape walk. We are also looking at using different units to measure. How many hands tall are you?

We have been thinking about fruit and vegetables. Why do you think we need to eat healthy foods? What foods do you know that are healthy? Ask a family member or friend if you can try a new vegetable or fruit. Which one did you choose? Can you describe what it tastes like? Let your Nursery teachers know if you try a new fruit or vegetable. Can you make a healthy menu for our café?

Let's talk...

We will all be starting Reception in September, which can bring out different feelings and emotions. Have a chat with a friend or family member about how you feel about moving to Reception. Is there anything you would like to know about Reception? What would you like to ask your new teacher?
