

Year 5 Weekly Overview

This page aims to give information about the subject areas that your child will be covering in their classes and in their English and Maths sets. This information is for the week commencing: **Monday 12th November 2018**

English

This week, we will begin a new unit of work on persuasive writing. We will look at different types of persuasive writing and identify the key features.

Grammar

This week, we will look at using bullet points to list information. We will explore how these are useful in non-fiction writing.

Spellings

More words with silent letters:

yacht
guarantee
debris
wrestle
guilty

Spellings will be adapted to offer suitable challenges where necessary.

Maths

Ms Webb's set This week, as part of statistics, we will look at different timetables and consider how we extract the relevant information. We will also become detectives in a murder mystery, using pulse rates to work out who committed the crime. **Times tables: Set targets TTRockstars**

Ms Leung's set This week, we will continue to learn about subtraction. We will use the column method (including renaming and regrouping).
Times tables: 6x

Mr Breuer's set: This week, as part of statistics, we will look at different timetables and consider how we extract the relevant information. We will also become detectives in a murder mystery, using pulse rates to work out who committed the crime. **Times tables: Set targets TTRockstars**

Ms Bosworth's set: This week, as part of statistics, we will look at different timetables and consider how we extract the relevant information. We will also become detectives in a murder mystery, using pulse rates to work out who committed the crime.
Times tables: Set targets on TTRockstars.

Ms Razimbaud's set: As part of statistics, we will look at different timetables and consider how we extract relevant information. We will also become detectives in a murder mystery, using pulse rates to work out who committed the crime.
Times tables: Set targets on TTRockstars.

Topic

Our topic this half term is 'Weather and Climate'. For the next two weeks, we will research weather and climate in different countries around the world.

Science

Our topic this half term is 'Changes in Materials'. This week, we will plan and carry out investigations that attempt to separate mixed materials.
