

Georgia Norton

My older son is in Reception, and younger one is almost one. I am delighted to have been appointed a Co-Opted Governor as I have found getting more involved with the life of the school rewarding. With 14 years experience in leading communications and creative agencies (adam&eveDDB London, R/GA NY, BBH London & NY) I am contributing to improving the marketing capacity of Coleridge. My career focused on innovation process and collaborative working. More recently I have chaired a parent's forum and developed training and policy to improve Diversity and Inclusion in the workplace. In my role as Governor, I hope to strengthen the link with Coleridge Families.

I'm a Londoner, born and raised, and have lived locally most of my life aside from five years working in the US where I met my husband.

I have a Masters Degree in Gender & International Relations from Bristol University where I focused on Security and Non-Governmental Organisations, in particular, Amnesty International.
