

# Year 5

## Remote Learning

### To the children,

It has been a very strange week without seeing all of you. Although you may think I would like the peace and quiet - I really don't! I miss everyone in Year 5 a great deal. I've been speaking to Ms Razimbaud, Mr Chamberlain, Ms Horton, Ms Webb, Ms Foulkes, Rachel, Charlotte, Dave, Ruth and Louise lots and they feel exactly the same about all of you. We all really miss teaching you and are thinking about you lots.

We hope you enjoyed your first week of remote learning and tried your best in all the activities. The Year 5 teachers and I have been working hard at home and together we have been getting your remote learning activities ready for this week. Please remember to listen to your parents, do the activities they ask and always try your hardest. Please keep some of your best work - we really want to see what you have done when we are back.

Mr Breuer

### To the parents,

We hope you are all safe and well and managing with this new, temporary way of life.

For Week 2 remote learning, there are new **English** and **Maths** activities. The wider curriculum activities will be updated fortnightly so there is no new wider curriculum this week. Please continue with the activities from last week.

All of the activities included in the Remote Learning are to do with concepts we have already covered this year. The activities are meant for the children to be able to do them independently and they are an opportunity for them to reinforce their skills and knowledge. Please do not feel pressured to do all lessons if this is not possible/realistic with your own jobs and siblings. Just to reiterate, we chose these lessons for those parents who were keen for their child to have a really structured week. If it is not possible to do this because of your home / work situation, then please do as you see fit. This might include combining lessons, missing some that you feel aren't necessary, and leaning more heavily on the videos/websites provided rather than the lessons. Please also remember that activities, such as playing with siblings and toys, drawing and helping around the house, are all excellent and valid learning opportunities.

We hope that the first week without school has gone well.

The Year 5 Team
