

Year 6

Remote Learning

To the children,

Hello!

We hope you are all doing well. We are really enjoying seeing the work that some of you are sending in. Most of you have probably seen some of the news recently about going back to school. We have been working hard with Mr Choueke and the rest of the school to make plans for your return. We are really excited about seeing you again and we are busy making plans for things we can do when school reopens. Things are going to look quite different when we do go back, it won't be the same as when you left. You will be in smaller classes but don't worry, you will be with some of your friends and we are thinking of ways to communicate between the groups in the class.

We haven't set new remote learning for the holidays, it is important to have a break before returning to school. But if you are reading this at the start of half term or want something to do, have a look at the older documents to see if there is anything you haven't done. There are also art activities on the website which are really fun. The remote learning for after half term will be available on the school website. For English, we have given you some activities on improving sentences and a first person narrative activity. For maths, we are looking at the order of operations. There is also new set of wider curriculum tasks to sink your teeth into! Over the half term, some parents and teachers are going to be working hard to prepare an exciting project for the end of Year 6 but we will need your help when we come back to school – watch this space!

You can find a video update from Mr G here: <https://youtu.be/f5K7VWZjCXM>

We are really enjoying responding to your emails and seeing your work. Don't forget that you can get in touch with us at year6@coleridgeprimary.net

Stay safe and have a lovely week!

Miss Edge, Mr Grimadell, Miss Henry and Mr Skrein

To the parents,

We hope you are all safe and well.

You should now have received a message from Mr Choueke about returning to school after half term. We are all working hard to make plans to ensure that the school is safe and that we have procedures in place for the children to return. School is going to be quite a different experience to what it was like before but we are determined to do everything that we can to bring the Coleridge spirit to our return. Please be assured that we will consider children's friendships when we are organising the class groups (bubbles). We can't ensure that all children are with **all** of their friends as there are many variables to consider, but we will make sure that children are with some of them. We are also thinking about how the class groups can communicate with each other. We realise that some children will not be able to return to school and we will continue to find ways to communicate with your children.

For week 11 remote learning, there are new **English, Maths** and **Wider Curriculum** sheets. The English grammar focus this week is on improving sentences. The writing activity is a first person narrative. Maths is on order of operations. There are lots of interesting activities in the wider curriculum document also.

We are still really enjoying hearing from the children through email and the mobile library is being well used. The email address for the children to contact us on is year6@coleridgeprimary.net

We are all missing our classes and looking forward to seeing the children back at school.

Miss Edge, Mr Grimadell, Miss Henry and Mr Skrein
