

Nursery: Learning at Home

Hello everyone I hope you have all had a nice week. Thank you to the children who have sent me messages this week, it's so nice to hear from you. I have some more messages for you to look at this week from the rest of the nursery staff, who are all missing you loads. Over the past week, I've been enjoying my daily walk to the park with my dog. I've noticed lots of new flowers and the leaves on the trees have turned green.

Where have you been going on your daily walk?

Can you write your name with objects?

Hakima made a lovely Nursery sign on a plate using things she found in her kitchen cupboards, such as lentils, peas and rice. She wrote the word first and then covered her

letters with the objects. Can you make one similar to Hakima, but using your name instead? First, write your name on a piece of paper (make sure you write it big) then find objects to place over the letters. You don't have to use food, you could use dinosaurs, tissue paper, Lego pieces or whatever else you can find. Maybe try writing some other words too. Please send me a photo once you've finished so that I can put them together for a display in our Nursery.

What can you hear?

I've been spending quite a lot of time listening to the birds outside my window and when I'm out on my daily walk. I've also noticed lots of other sounds too. What can you hear outside your window or in your garden? Have a go at playing the game below. Can you hear any of the sounds from the game, outside your house? (Parents, you will need to create a free account if you don't have one already.)

Bugs!

Have a listen to the story 'Superworm' by Julia Donaldson.

<https://www.youtube.com/watch?v=0keNDquvZEE>

There are so many bugs and animals in the story. Which ones did you spot? When you are out on your daily walk or out in your

garden, can you spot any of the minibeasts from the story? You might have to look under logs and leaves to see if they are hiding. Look at the worm we found in our garden, I wonder if it's Superworm? Can you make your own bug house/hotel for the bugs in the story, or for the bugs in your garden? You could make one for the bugs in our Nursery garden. To make a bug hotel, you could use toilet tubes inside a box or tissue boxes and plastic bottles with leaves and sticks inside. You can be as creative as you like - you could even make a sign for the bug hotel. Please send me some photos!
