

29th June 2020

Dear Parents/Carers,

If your child hasn't yet returned to school and you would like them to, please email the admin team and this can be arranged for the following week. As the end of term approaches, you may want to send your child in for a couple of days to see their friends and say goodbye to teachers – we are able to accommodate this, as long as you let us know a week in advance. We'd love to see them!

We understand that some children are still not able to come in to school and so we are continuing to create ideas for remote learning for them to do at home. This learning is also there for the children who are in school for two days a week to do at home on the other three days - we won't do the Remote Learning activities in school so please do access these at home. After such a long period away from 'normal' school life, we would really encourage you to do as many of the Remote Learning activities with your child as possible now, as this will help them to be in the best position ahead of entering Year 1.

This week, we have also included two additional number activities: All About 'teens' numbers; Number formation sheet.

As always, we are available on the email address reception@coleridgeprimary.net, so please get in touch, if you would like to discuss anything about your child or have any questions about their learning. You can also use this email address to let us know if you would like any of the Remote Learning sheets printed out – we will then arrange for this to be done and let you know when they are ready to collect from the school office.

With best wishes,
The Reception team

Headteacher Leon Choueke
