SPELLING- Week 12

This week we are going to be focusing on prefixes again. Can you remember what a prefix is? What prefixes have we learnt so far?

A prefix is a word that is placed before a root word. By adding a prefix to a root word it changes its meaning. So far we have looked at the following prefixes:

Un	Mis	Dis
meaning 'not' Normally given negative or opposite meaning.	meaning 'ill, mistaken or wrong'.	meaning 'apart or away' Normally gives it the opposite meaning.
Examples: unfair untidy unwell	Examples: misbehave misspell misplace	Examples: disrespect disagree dislike

Can you think of any other words that start with one of the prefixes listed above?

Focus

This week we are going to be focusing on the prefix **re**.

The prefix **re** usually means 'again, repeat or back'.

Here are a few examples of the prefix **re** being used.

Root Word	With Prefix
write	rewrite
appear	reappear
turn	return
move	remove

Below are some activities for this week's spelling focus. Try and do as many as you can but don't worry if you can't do all of them, just try your best!

Activity 1 - Re Hunt

Use a dictionary to try and find as many words with the prefix re.
Set yourself a time challenge. How many can you find in 15 minutes?

Once your time is up, try and write down the definition for each word and then use it in a sentence. This is especially useful for new words that you may have found

Example:

Word	Definition	Example
Recycle	convert waste into reusable material	I always like to try and recycle plastic.

Activity 2 - Wordsearch

Try and complete the attached word search, which focuses on **re** words. If you do not have a printer or finish quickly, why not try making your own word search. You can either use the blank template or draw out your own template. (Spellings - Activity 2)

Activity 3 - Changing words to RE

Look at the attached sheet. Read the following sentences. Add **re** to the root word, to create the new word. Copy out the sentences with the correct word onto paper. You can mark your work afterwards using the marking sheet. (Spelling - Activity 3)

Activity 4

Add the correct prefix before these root words. They might be any of the 4 prefixes that we have learnt so far - mis, **dis**, **un** and **re**. Try and do it independently. To check answers use previous spelling work, as well as dictionaries to support you.

behave	happy	write	know
honest	comfortable	place	zip
count	lucky	tell	fortune
well	move	appear	use
like	wrap	build	read

Write out the new words. Are there any root words that can use multiple prefixes to make real words?

MY SPELLINGS

Keep on working through the words on the **100, 200** and **Year 3 and 4** wordlists. (Wordlist were attached to Week 10's remote learning). Also, look at your spelling book to see the words that you got wrong in past tests and keep revisiting them.

Pick up to 10 words from these lists to practise each week. Practise the ones that you find hard to spell correctly by using the **LOOK, SAY, COVER, SPELL CHECK** method and then using them in sentences. Try and do a little spelling test like you would do at school and see which ones you got right. If you got any wrong don't worry just add them to next week's test, and keep on practising them. Remember practise makes **PERFECT!**
