

# Nursery: Learning at Home

Hello everyone, hope you all had a lovely week and managed to make some delicious biscuits! Please send photos to me at [nursery@coleridgeprimary.net](mailto:nursery@coleridgeprimary.net). I look forward to seeing your colour monsters this week. I hope that you are all feeling yellow and green!!

## The Colour Monster!

We all know and love the story 'The Colour Monster' by. Can you also remember our feelings board that we had in the Nursery? What colour did we use to show that we are happy? Listen to the story again.

<https://www.youtube.com/watch?v=lh0iu80u04Y>

What colour did the monster use to show that he was calm? What colour are you feeling today? Have a go at making your own colour monsters. You could draw your own monsters and colour them in, paint them or make them using junk modelling materials such as toilet rolls. You could also use paper plates or circles like we did in the nursery and find objects and materials for the different colours to stick on your monster. Once you have made them can you write or make marks to say what feeling they are? You could use your colour monsters to show how you are feeling.

## Counting!

Can you or your family member write the numbers 1 – 10. Now get somebody to hide the numbers around your house or in the garden. See if you can find the numbers and put them back in order. Now you hide them for your family member to find.

Once you have played the game. Can you find some objects to show what the different numbers are? Look at my numbers, how many strawberries did I find? How many raisins? You could take photos of your objects or make a number picture. Maybe you could collect leaves or petals, use your toys, pieces of Lego or you could draw objects or shapes to show your numbers. You could stick your photos or number pictures on your wall for everyone to look at.

## Challenge!

Watch the video of me making a snake! <https://youtu.be/5S6SI9JSH9M> Can you use your fabulous cutting skills to make a bouncing snake? Try to do the cutting by yourself. If you don't have a paper plate, you could draw a big circle on a piece of paper or card and use that instead. Remember to paint, colour or draw your snake first. You can use my template to cut out if you need to.
