

Reception: Learning at Home

20.7.2020

Play, Play, Play!

The most important thing you can do this summer is to play, play, play! If you can, then play with your brothers and sisters, cousins, or friends. Remember to listen to other people's ideas and have a go at things they want to do, as well as suggesting your own ideas for games. That makes it fair and fun for everyone.

Try to play outside as much as you can, and use your imagination to come up with a new game.

You could even make props or masks to go with your play.

Most of all, remember to have lots of fun!

Remembering Reception

It's been a bit of strange year with lockdown happening, but you have all learnt so many new things, at school and at home. Talk to someone at home about what you've learnt this year. What do you feel most proud of yourself for? Which things have you got better at, and how did you get so good at them?

Write a list of all things you can do now that you couldn't do a year ago.

Now think about something you hope to learn or get better at, when you are in Year One. Write that down too and keep it somewhere safe. Look at it next year so you can see if you achieved your goal!

Websites

- <https://www.bbc.co.uk/programmes/p0659nt5> - Follow this link to join Karina for her Happy Tent Tales - traditional stories that feature themes of kindness, friendship and courage, told through a unique blend of narration, movement, music and rhyme.
- This website has lots of fun maths games : <https://www.topmarks.co.uk/Search.aspx?Subject=16&AgeGroup=1> Choose subject 'Maths' and age group 'early years' to find games which practise lots of the concepts and areas of maths we've covered this year.
- Have a go at some of the science experiments on here: <https://www.topmarks.co.uk/Search.aspx?Subject=16&AgeGroup=1>
- Play some of the free games on here: <https://www.phonicsplay.co.uk/resources> (We have covered all of Phase 2 and these sounds in Phase 3: j, v, w, x, y, z, qu, sh, ch, th, ai, ee, oa, oo, ar, or, ow, er.)
