

Year 1 Home Learning

Topic & science

This half term, our topic is *The Great Fire of London*. We will learn about Samuel Pepys, and the events of the fire in 1666

Our science topic is *Plants* for the whole of the summer term. We will find out about common wild and garden plants, and will also learn about the structure of some of these plants and flowers.

Proper Project

When you were born...

Find out about what was going on in the world on the day or month that you were born. Use different sources to research; try looking on the internet, at books and talking to people in your family.

You might want to make a poster or a booklet about what you have found out!

Create 'n Make

Secret Garden

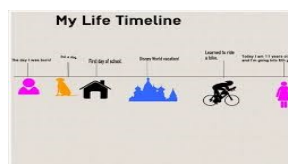

Create your own secret garden full of your favourite flowers and insects.

Find a shoebox and build your own garden paradise inside. You could use photos, magazines, make your own pictures or even press your own flowers!

Let's talk...

Talk to your family about important events that have happened in your lifetime and in that of your family. Create a time line showing some of these events. These could include your birth, siblings' births, moving house, starting school, getting a pet, etc.

Out and about...

Visit the Museum of London at the Docklands to find out more about The Great Fire of London. If you can't get there, you could look on their website. Tell the rest of your class any interesting facts that you have learnt.
