

Year 3 Home Learning

Topics & science

This summer half term, our topics are: **History:** Ancient Greece

Geography: Volcanoes

Science: Forces and magnets

Proper Project

Research a famous volcanic eruption – use websites or books to find out about famous eruptions from the past, like Vesuvius, Krakatoa or Mount St Helens.

Present your findings in any way you like; you could make a poster, an information leaflet, a power point presentation or a fact sheet.

Create 'n Make

The ancient Greeks loved theatre. They used big outdoor theatre spaces called **Amphitheatres** to perform plays.

Research all about the amphitheatres they used and then have a go at making a model of one. You could use cardboard, clay or any type of building blocks.

Out and about...

London is home to some fantastic museums! Why not visit the *Wildlife Photographer of the Year* exhibition in the Natural History Museum? Or have a look at the British Museum's two Greek exhibitions: "Ancient Greeks: Athletes, Warriors & Heroes" and "Troy: Beauty & Heroism"? The Science museum has a fun "Who Am I?" section, as well as an Ancient Greeks exhibition!
